

Anticoagulation Monitoring

In this knowledge-based continuing pharmacy education activity Dr Michael Smith, RPh, PharmD, CACP discusses the various laboratory tests for monitoring anticoagulation therapy.

Target Audience:

Pharmacists who are interested in the management of patients on anticoagulation therapy and/or who are interested in starting pharmacy services for patients on anticoagulation therapy

This activity is not accredited for technicians

Learning objectives:

At the conclusion of the activity, pharmacists will be able to:

1. Explain the role of INR, Factor Xa assays, partial prothrombin time (PTT) in monitoring for anticoagulation therapy
2. Describe the monitoring parameters for specific anticoagulation therapies
3. List the counseling points for patients on chronic anticoagulation
4. Formulate case-specific monitoring plans

Activity Faculty:

Michael Smith, RPh, PharmD, BCPS, CACP
Clinical Coordinator
William W Backus Hospital
Norwich, CT

Faculty Disclosure:

In accordance with the Accreditation Council for Pharmacy Education (ACPE) Criteria for Quality and Interpretive Guidelines, The University of Connecticut School of Pharmacy requires that faculty disclose any relationship that the faculty may have with commercial entities whose products or services may be mentioned in the activity.

Michael Smith, RPh, PharmD, BCPS, CACP is on the Speakers Bureau of Glaxo Smith Kline

Activity Fees:

The fee for the live webinar is \$15.00. Webinar participants will be sent an email following the webinar with instructions for receiving pharmacy CE credit.
